A tool for setting up your My Book Live Duo device My Book Live Setup is a cross-platform application designed to help you set up your My Book Live device attached to your network.. Google Duo interface is very similar to that of Apple FaceTime app Let's get started installing Google Duo on Mac OS X.

The My Book Duo drive is desktop RAID storage with massive capacity ideal for storing photos, videos, documents and music.. Google Duo is the latest app from the Google Play Store and iTunes store that allows you to video chat with anyone else that has the Google Duo app installed.. RAID-0 mode provides super-fast performance with up to 360MB/s sequential read speeds (using the USB Type-C port).. You can quickly use the Google Duo app on your iPhone, Android, or Mac OS X machine to video chat with Android users.. Switch to RAID-1 configuration for redundancy and to mirror data on the WD Red drives inside.
